TWO KILLED IN ACCIDENT

THE ENTRANCE TO THE MCGILLIVRAY MINE at Coleman, where two miners were killed under tons of debris following a rock slide on one of the lower levels Wednesday. Presents a block picture of stark, bare beams, showing up the walls of dirt and rock. Crews worked feverishly around the clock for 33 hours in a vain attempt to dig through the rubble to their trapped comrades, but the two men were crushed to death in the cave-in.

By BILL DREVER
(Calgary Herald Staff Writer)

Two small mine trucks bearing the bodies of two Coleman miners reached the surface of the McGillivray coal mine Thursday within 33 hours from the time the men were crushed by a rock slide 1,000 feet below the ground level.

The dead men are Johnny Powlyk, 34, a veteran of the Second Great War and father of two small children, and William Kakin, 27, a Polish immigrant and father of one.

Powlyk's body was brought to a waiting hearse which had been brought from Blair. Few saw the delivery, as most of the other miners were busy searching underground for Kakin.

It was five hours later under some of the heavy rock which had "bumped" from the ceiling of one of the mine rooms, where Powlyk and Kakin were working Wednesday.

When the accident first occurred, some hope was held for the safety of the pair. It was believed they might have been away from the mine, as most of the other miners were busy searching underground for Kakin.

Two mine inspectors, J. B. Brown of Lethbridge and Philip Melson of Bellevue also assisted. First indication of the accident came about the lunch hour. Powlyk and Kakin had been having lunch with two other miners near the scene of their work. Powlyk and Kakin died

to return to work and left their fellow miners. Within a few minutes the fellow miners heard a bump and realized something had happened a short distance away. They rushed to the scene and found the rock fall, and then reported to their fire boss, who, in turn, reported to higher authorities.

All miners on shift at the time

Cuts through courtesy of Calgary Herald

the Canadian army in the Second World War. He is survived by his wife, one daughter, Grace, 8, and a son, Arthur, 5. His parents, Mr. and Mrs. A. Powlyk, and two sisters, Rose and Jean, also live at Coleman.

Kakin was born in Poland and came to Edmonton in 1946 in the first contingent of Polish immigrants after the war. The following year he came to Coleman and started working at the mine. In September, 1949, he married Mary Zur of Coleman. They have one son, Teddy, 3. His mother and two sisters still live in Poland. During the Second World War, he served with the Polish veterans guard.

No Blame Attached

Coleman—An inquest under the direction of Coroner Doctor E. J. Liesemer of Coleman investigating the death of two Coleman miners who perished in a rock and coal cave in at the McGillivray mine of the Coleman Collieries was held here Friday night and returned the following verdict: "We the jury find that William Kakin and John Powlyk met their death through skull fractures and chest injuries, either of which could have caused their death. The accident occurred at about 11:30 a.m. on the 8th day of May 1953 at No. 16 pillar 101 north east entry at the McGillivray mine at Coleman, Alberta. We find that William Kakin and John Powlyk were crushed under a heavy rockfall, with no blame attached to anyone. However, it is the recommendation of this jury, that if there is a danger of further accidents occurring in this section through "bumps" or caving, that the section be closed to all working."

Evidence was given by Doctor Emil Aiello of Coleman who stated William Kakin had extensive skull injuries, a smashed chest and broken femur and that the cause of death was from a fractured skull and chest injuries that had caused extensive bleeding. Continuing he stated that John Powlyk had sustained a fractured skull, crushed right chest, crushed right shoulder and fractured right hip. He stated that the cause of death was a fractured skull.

The next to give evidence was E. Price, mine surveyor of the McGillivray mine who furnished a blueprint and diagram of the accident area and explained in detail the section of the mine.

Next to give evidence was Al-

WILLIAM KAKIN

of the bump went to the surface on instructions from their superiors, and then rescue operations were started immediately. One of the first things the rescue crews did, according to officials, was to sound for the two men by tapping on the rocks in the vicinity of the slide. They received no response and the rescue operations, started in earnest.

Frank J. Harquail, managing director of the mine, told The Herald that rescue workers had to exercise care in their work to find the bodies. He said there always is a danger of a second slide as such debris is cleared away.

It was too dangerous to dig immediately into the debris, and therefore a tunnel was dug parallel to the debris. This carried the rescue operators to the end of the room in which the men were believed to have been trapped. This operation was completed about 3 p.m. Thursday, and hope then waned for the missing pair.

Powlyk was born Nov. 10, 1919 in Edmonton, and came to Coleman as a young boy. He attended public and high school here and then served three years with

FORMER RESIDENT VISITS HERE AFTER CALLING ON FORMER RESIDENTS

Harry Banamer, resident of Coleman from 1905 till 1909, dropped into the Journal office last week while visiting with W. Hogan. Mr. Banamer is now a resident of Massachusetts.

A traveller of some repute, Mr. Banamer, told of visiting with early Coleman residents in different parts of Canada and the United States and very graciously offered to supply the Journal with a story regarding these people today. Further he volunteered to supply the Back Home Committee with the names and addresses of these people that he has visited in order that invitations may be sent to have them return home for the anniversary.

Lady Curlers Hold Election

On Wed. May 6th, the Ladies' Curling Club held a banquet in the Grand Union Hotel, which was very well attended. The Hotel management was highly praised by all present for the service provided, and the courtesy shown on this occasion.

Mrs. W. Roughhead was the recipient of a handsome gift in appreciation of services rendered the Ladies' Curling Club in the past year. The presentation was made by President V. Thierghien.

The new slate of officers elected for the coming year are:

President—Mrs. N. Kinnear.
Sec.-Treas.—Mrs. A. Pavlus.
Coffee Counter Exec.—Mrs. V. Phillips.
Mrs. A. Fleming.
The new president extended a vote of thanks on behalf of the club to the retiring president V. Thierghien and Sec.-Treasurer E. Fraser.

Following the election of officers, whilst was played with prizes, going to Mrs. V. Thierghien and Mrs. Joy Kwasnie.

bin Panek a fireboss in charge of the district of the accident. Mr. Panek stated the place of work had been in good condition and that he had made an inspection of the area about 15 minutes before the accident occurred at approximately 11:30 a.m. He stated having heard what he thought was a mild bump at the time of the accident. He also mentioned having heard a bump the day before. Joe Bartaletti, a miner working in the belt, said the deceased miners stated that the place of work was in good condition and that there had been no indication of danger. He further stated that he and his partner had asked Powlyk and Kakin to go together to eat lunch but that the pair had stated they wanted to put up one more timber then they would come down. He said they began carrying the timber up the pillar and were about thirty feet from him and with no warning it came down. He reported having heard what he thought sounded like a bump. He immediately sent his partner down to look for help and he went to the scene of the cave and holed to see if the men had been caught in the fall of rock but he received no reply to his calls.

Edgar Allen, pit boss in the mine next gave evidence stating that the area was well timbered and had been in good condition the day before when the mines inspector Melson had inspected the premises. He further stated that since the accident three months ago which had claimed the lives of three miners in this district, the coal company had taken measures to use heavy timbering in this area to act as an extra protection for the miners.

Thomas Cochrane, a mining engineer of the Department of Mines and Technical surveys who are studying bumps and conversations in the Pass mines stated that he had been in the pillar one half to three quarters of an hour before the mishap and that the roof of the pillar was really quite good and that there was not many fractures in the roof.

Philip Melson, mines inspector then gave evidence stating that he had heard a bump the day before and when returning to investigate the bump found a miner Ted Antkowiak had suffered a broken kneecap when he was partially buried in a small fall of coal. On May 6th Mr. Melson reported that he and Mr. Allen had went back to room 16 and that the place was in good condition. He also stated that on both occasions there had been no presence of "gas".

After a period of 35 minutes deliberation the jury comprising Foreman Adam Wilson, Gracie Cell, Norman Ash, Paul Fallier, Cecil Coover and John Gray returned their verdict.

In a statement to the Herald after the inquest a mine official stated that the Coal Company had been considering closing off this particular section of the mine.

NEW POST OFFICE LISTED FOR COLEMAN SHORTLY

Shown here is the post office serving Coleman at the present

Coleman's new Post Office received the okay last week according to correspondence from B. G. Hansell member for this constituency. Details as to the building, site and start of construction are not known at this time.

Agitation for this building has been carried out by the Coleman Board of Trade for the past 4 or 5 years, culminating with a visit by Mayor Abbotsford to the Deputy Postmaster General last year showing pictures of the present building.

Mr. Hansell's letter appears below.

OTTAWA, Ontario,
May 1st, 1953
Mr. P. A. Dickleson,
COLEMAN, Alberta.
Dear Sir:

My records here show that you wrote to the Postmaster General on November 28th, 1949, on behalf of the Board of Trade, requesting a new public building for Coleman. As you are aware I have been working on this matter since that time.

I am now able to officially inform you that the Government has decided to go forward with plans for a new public building at Coleman. Supplementary Estimates for additional expenditures have now been made public and an appropriation of \$80,000 is being set aside for the acquisition of sites and preparation of plans for five public buildings, two of which are in my constituency, Coleman being one of them.

In case you have not heard directly from the Minister, I thought you would be pleased with this information. If you are now not Secretary of the Board of Trade, perhaps you could pass this information on to the appropriate people.

With kind regards,
Yours very sincerely,
Ernest O. Hansell, M.P.

S. B. "Paddy" Ryan Laid To Rest Monday

Sidney Bernard Ryan passed away at his home Thursday May 7 at 8 p.m. following a month's illness. "Paddy" as he was known to most people of Coleman, was of a kind and warm nature at heart and always ready to give a helping hand when needed.

Edgar Allen, pit boss in the mine next gave evidence stating that the area was well timbered and had been in good condition the day before when the mines inspector Melson had inspected the premises. He further stated that since the accident three months ago which had claimed the lives of three miners in this district, the coal company had taken measures to use heavy timbering in this area to act as an extra protection for the miners.

Thomas Cochrane, a mining engineer of the Department of Mines and Technical surveys who are studying bumps and conversations in the Pass mines stated that he had been in the pillar one half to three quarters of an hour before the mishap and that the roof of the pillar was really quite good and that there was not many fractures in the roof.

Philip Melson, mines inspector then gave evidence stating that he had heard a bump the day before and when returning to investigate the bump found a miner Ted Antkowiak had suffered a broken kneecap when he was partially buried in a small fall of coal. On May 6th Mr. Melson reported that he and Mr. Allen had went back to room 16 and that the place was in good condition. He also stated that on both occasions there had been no presence of "gas".

After a period of 35 minutes deliberation the jury comprising Foreman Adam Wilson, Gracie Cell, Norman Ash, Paul Fallier, Cecil Coover and John Gray returned their verdict.

In a statement to the Herald after the inquest a mine official stated that the Coal Company had been considering closing off this particular section of the mine.

Elliott's Dogs Win At Calgary Dog Show

J. Elliott's St. Bernards cleaned up in their classification at the Dog Show in Calgary a week ago bringing home a handsome array of ribbons. Three year old Enterprise Major of The Hills was awarded Best of Breed, Best Canadian Bred in Breed and six lesser awards. This standing will give him a certain number of points towards the championship. Eleven months old Shawn of Corel A won the Best Canadian Bred Puppy In The Breed and 5 lesser awards.

RED CROSS NEWS

The local Red Cross branch sent in their second shipment of articles on Wednesday, May 6th. It included the following:

- 3 quilts
- 2 used blankets
- 11 girl's slips
- 2 girl's sweaters
- 8 pairs of children's panties
- 3 pairs of men's socks
- 1 girl's apron
- 6 pairs of pillow cases
- 6 sheets.

The work committee would appreciate it very much if those who have taken work out will return it to the Red Cross room by May 20.

Holy Ghost Church in Coleman. A veteran of the First Great War he served with the R.A.F. Overseas and was a member of the Coleman Canadian Legion. Following his war service he taught mathematics for 1 year at the Christian Brothers' College in Cork. An ardent fisherman, he also found relaxation in curling and photography.

Surviving to mourn his loss are his widow Mrs. Agnes Ryan, his mother Mrs. Florence Ryan of Calgary and a brother H. J. Ryan, of Calgary.

Requiem Mass was conducted by Rev. Father Dean Sullivan in the Holy Ghost church at 10 a.m. Monday May 11. Miss Monica Oides presided at the organ, and Father A. E. Anderson, of Blair more sang mass. Following this the cortege proceeded to the Catholic cemetery where services were conducted by Father Sullivan.

Maurice Drew conducted a second service on behalf of the Canadian Legion, the firing party firing a salute. Comrade Fred Bedington sounded the Last Post.

Funeral services were P. A. Dickleson, J. Tompkins, A. Dulca, A. Montalbetti, J. Parks and T. Holstead.

Those from out of town attending the funeral were: Mr. H. J. Ryan, Miss K. Kilgannon, Mr. and Mrs. W. R. Jones and family, Mrs. L. Schumacher, all of Calgary; Mr. T. Murphy and Kathleen, Kimberley; Mr. H. Olson, Fort Macleod; Mrs. M. Booth, Vancouver and Mrs. E. V. Wood, Rocky Mountain House.

Owing to lack of time and space the list of flowers and spiritual offering cards has been left over till next week.

MILLINERY FASHIONS FOR CORONATION-CONSCIOUS — The feminine version of the fabulous fur headgear worn by royal palace guards has been created by the well-known millinery designer, Mr. John. It may be somewhat warm for the coronation month, but if the palace guards can take it, milady will too, just to be in the swing. Photographed on the spot, in London, beside the original, the fur bonnet appropriately named "Gentlemen present arms."—Central Press Canadian.

OVERTURNED CAR PINS GIRL INSIDE FOR EIGHT HOURS—Trapped inside this capsize automobile after it had crashed over a bridge railing on outskirts of Ottawa, 15-year-old Christine Carol Decary remained a prisoner for more than eight hours before she was rescued. Her companion, 17-year-old John Batty, lay dead a short distance from the car, killed when it went out of control and plunged into shallow creek. The youngsters were on their first date together at a drive-in theatre, from which they were returning when accident occurred. With her hip fractured, Christine fought against unconsciousness through the long nightmare of hours which ended only when a motorist saw a hub-cap lying on the road and stopped to investigate.—Central Press Canadian.

QUEEN, PRINCE POSE FOR LATEST COMMAND PORTRAIT — In latest pre-coronation command portrait by Baron, Queen Elizabeth poses with Prince Philip in the green drawing-room of Buckingham Palace in London, wearing a pale pink evening gown of lace over tulle. The sash is the blue ribbon of the garter. With it she wears the star of the garter. Her jewelry consists of a Russian fringe diamond necklace (a wedding present from the city of London), diamond drop earrings, two diamond bracelets and her diamond wedding ring. The diamond drop brooch at the top of the blue ribbon is a family heirloom that was previously worn by the late Queen Mary. On the Queen's head is a diamond diadem, the headband of which is composed of a row of diamonds between two rows of pearls. The diadem, which is of great age, was re-set for Queen Victoria. The Duke of Edinburgh is wearing the uniform of an admiral of the fleet.—Central Press Canadian.

TAKES DEFENCE ROLE "TOO SERIOUSLY"—When Windsor, Ont., held a mock air raid session recently, officials concluded that some residents, among which was Karl Ik, seen above, took their civil defence training too seriously. Like 50 other "victims", Karl, aged 15, lay on the street sporting a "blood"-spattered shirt and large scars and bruises painted on his face. While waiting for civil defence trainees to arrive on the scene to treat his "wounds", he was spotted by a passerby, who called for an ambulance. The ambulance driver and attendant took one look at Karl and a slightly damaged car which happened to be parked nearby and presumed he was the victim of a traffic accident. He was rushed to a hospital, and only when he was placed on the operating table did Karl decide his act had gone far enough. He suddenly sat up and explained to the amazed interns and nurses that he had simply been the victim of an "atomic bomb explosion".—Central Press Canadian.

HELLO LONDON . . . GOODBYE U.S.A.—With a tip of his hat, famed film comedian Charles Chaplin greets London, following his arrival from Geneva, Switzerland, where he handed over his re-entry permit to U.S. consulate. This action preceded statement made by 64-year-old comedian that he is giving up his residence in the U.S. because lies and vicious propaganda by reactionary groups handicapped his film work after 40 years. A British subject who never sought American citizenship, Chaplin was linked last year by the U.S. Justice Department with communism and grave moral charges when he went to London for premiere of his latest film, Limelight. "He was barred from re-entry unless he could establish his right to enter the United States through an unimpaired and fair vice examination, 'like any other alien'."—Central Press Canadian.

ARGENTINIANS ARE JAILED FOR BREAKING PRICE LAWS—Some of 750 merchants accused of violating the new price laws established by Argentine government are seen above on their way to jail in Buenos Aires, where they will serve a 90-day sentence. President Peron is currently waging a strong campaign to halt skyrocketing prices and end a meat shortage in the capital.—Central Press Canadian.

SCOTS WELCOME THE QUEEN—Queen Elizabeth is escorted by Sir Alexander Braes on arrival at Dumfries Castle, Scotland, where Her Majesty was presented with the keys to the castle by Maj. Gen. A. P. D. (er-Smelet, keeper of the keys. Behind them walks the Duke of Edinburgh, wearing the uniform of Admiral the Fleet. The Queen visited Scotland to launch the new Royal Yacht, Britannia, being built on the Clyde.

"CREDIT IS GOOD" WITH U.S.A.F.—Flt. Lt. Grant H. Nichols, of Droyden, Ont., an R.C.A.F. exchange pilot flying with the U.S. air force in Korea, has been credited with damaging a Communist MIG-15 over North Korea. Flying a Sabre jet, Nichols was among a group of pilots credited with shooting down two MIGs, probably destroying one, and damaging seven others.

EGYPT'S CABINET MINISTERS TAKE MILITARY TRAINING—For the first time in Egypt's history, a military training program was launched exclusively for members of the Egyptian cabinet. Ministers donned khaki uniforms and marched to the training ground near the University of Cairo for their first instruction in the use of the rifle. The cabinet ministers train for one hour every morning for the 15 days. Top shows minister of state Fathi Radwan leading the single line of ministers in the march toward the training ground. Bottom, deputy prime minister Soliman Hafez receives instruction in use and handling of the rifle.

HE COULDN'T WALK BACK—Charles (Fantastic) Smith, who set out from Cabrillo Beach, Calif., to "water-walk" his way to Catalina Island, is shown astride his nautical treadmill a few moments before the four gas tanks came apart at the seams. He was rescued three miles out at sea by lifeguard ships. Another attempt also ended in failure.

OUR COMPLETE SHORT STORY—

Murder Will Out

By G. PATRICIA WARBURTON

TONIGHT Cora would be killed. Every detail was carefully planned. Now the stage was set. There would be no mistakes. Cora would pay with her life for her years of suffering.

All that Cora had, all that Cora spent was rightfully his. The unfair will of his stupid stepfather had made her little better than a pauper. Why should Cora have such wealth? Stupid Cora who did not even know how to enjoy money, but founded a Cat and Dog Home?

Even with all her money she had not managed to get a husband. No wonder, with her coy mannerisms, her giggling voice.

He had been clever. Never once, by word or deed, had he revealed his feelings. It was always "Good morning, Cora, how are you today?" when he met her. And after church he would greet her. "A lovely day, Cora, nice to see you."

Oh, he had been careful. He took her to dinner three or four times a year, and she always invited him for Christmas dinner at the big house on the hill.

No one would ever suspect him. He smirked at himself in the mirror and bowed sardonically to his image. He looked impatiently at his watch.

Anne Adams Pattern Dept.,
Prestige Publishers Limited,
60 Front Street W., Toronto.

Another five minutes and she would be here. He glanced round the room, taking in every detail. Everything was in place, everything fine. Cora would be surprised.

The lights were dim, the radio played softly, and the large easy chair was in front of the glowing fireplace.

He felt a surge of excitement. He lit a cigarette and wished savagely that she would come.

Then he heard her heels tapping along the hall. She always persisted in wearing high shoes with ridiculously high heels and looked as though she was about to topple over.

The shrill ring of the bell shattered the silence, and he flung the door open.

"Why, Cora, how nice you look," he murmured.

"Do you really like it?" she simpered.

"Marvelous," he replied quickly, wondering whether she meant the monotony of her hat or the mustard-colored coat that did not enhance her pale white complexion and faded blonde hair.

How startled she would be if I told her the truth, he thought. He toyed with the idea while she removed her coat and hat and fluffed her hair, talking incessantly.

She was taken aback by the appearance of the room.

"What have you done to it?" she quavered. "It looks different."

"It's a long time since you paid me a visit, so I changed everything round."

She said nothing, and still seemed puzzled.

I mustn't let her suspect anything, he thought, and turned on all the lights. "There, that's better, isn't it?"

Putting on the lights seemed to reassure her. After a few minutes she was prattling on at a great rate. "Will you have a cocktail, Cora?"

"Well, I suppose I shouldn't, but just one. I'll pretend it's a celebration."

Many a true word spoken in jest, he thought. If you only knew it, you're the celebration, or soon will be.

The cocktail was strong and Cora seldom drank, so her face became flushed, her eyes bright, and she didn't even notice when he turned out the lights and only the fire lit the room.

This was it. This was the zero hour.

He sat on the arm of her chair, close beside her.

She stiffened, but he went on talking and smoking, and gradually she relaxed.

Casually, he slipped his arm round her.

"You know, Cora, I'm very fond of you. Have been for years, and I often think of you."

He put patches into the last line, then got up quickly into the hall, then got up patches as though overcome with emotion.

He came back behind her chair and lightly stroked her hair.

She seemed dazed at first, then as his hand caressed her neck, her breath came quickly, and he thought of the unsisterlike ideas that must be running wild in her mind.

For just a second his hands tightened round her neck, and he thought, no, not that way.

"Poor Cora," he murmured, for she could not see the sharp, glittering blade.

He raised his hand, then brought it down quickly.

She sighed slowly, then toppled over.

He looked fascinated at the red stain on his hand, then shuddered. He looked up apprehensively.

"All right," boomed a voice. "Time out for lunch. Everybody back on the set in an hour."

UNDAUNTED BY DAMP WEATHER:—While in Scotland for the launching of the new royal yacht Britannia, Queen Elizabeth stopped off at Clydebank to see completion of a new housing project. Undeterred by the rain which greeted her, and sheltered by an umbrella and a Mackintosh, the Queen is seen on tour of project accompanied by the Clydebank provost, Alexander Braes, at right.—Central Press Canadian.

Exchange Of Farmers Again Been Approved

REGINA.—The exchange of farm workers between Ontario and Saskatchewan has again been approved by the Federal-Provincial Farm Labour Committee.

The Committee Secretary, L. J. Hutchison, Director, Farm Labour Division, Agricultural Representative Service, Regina, said the group had recommended the movement of 200 men from Saskatchewan to assist in haying and harvesting in Ontario.

After completion of that work the Committee has requested that if required up to 1,500 eastern harvesters be brought to Saskatchewan for the harvest in this province.

Mr. Hutchison stated that 1,074 Ontario workers came to Saskatchewan last year under the excursion plan and from 2,000 to 4,000 others came on their own.

The Committee Secretary emphasized that the number recommended may be revised on the basis of the extent and condition of the 1953 harvest.

The Farm Labour Committee has also considered the problem of domestic help on Saskatchewan farms and has suggested that the federal labour department explore the possibility of bringing domestic immigrants from the British Isles.

A further contingent of immigrant German farm labourers is expected to arrive at the east coast soon. Those who landed at St. John on April 20 are now being directed to farms through the National Employment Service. Of these, 20 are being allocated to Saskatchewan.

Eggs Were Omen Of Things To Come

PITTSBURGH, Kan.—Several weeks ago chickens at the Howard Windsor farm, near Pittsburgh, began laying double yolk eggs. Windsor jokingly told his wife, who was expecting, that it might be an omen.

April 1, a rooster on the couple's farm gave birth to twin calves.

Recently Mrs. Windsor received her visit from the stork. She got twin boys.

Body Of Mammoth Discovered

EDMONTON.—A former gold miner told of finding in Alaska of a mammoth's body just as it was 50,000 years ago with flesh and hide intact.

Frank Kelly, now a gas station operator at Fort Nelson, B.C., said in an interview he was on an open-pit mining crew which uncovered the body along with those of a mammoth calf and a tiny horse in the Chatiniki river country near Fairbanks.

"The animal appeared just like it was in real life," said Kelly who is in Edmonton on a visit.

He brought here an 11-pound tooth from the mammoth, somewhat similar in appearance but twice the size of a present-day elephant. The tooth was nine inches long with a seven-inch grinding surface.

Winnipeg To Re-Open Schools In August

WINNIPEG.—It probably will rank as sabotage in the eyes of the school kids, but the Winnipeg School Board has decided to re-open city schools in August instead of the usual September.

The date is Aug. 31, but it's still August.

A board official explained that Aug. 31 falls on a Monday, and if schools were re-opened Sept. 1 the school year would include only 199 days—one day short of the minimum 200 days necessary to collect Provincial grants.

Australia's population was estimated at 8,538,000 at the end of 1951, an increase of 3,000,000 in 30 years.

Short Grain Crop Foreseen

OTTAWA.—According to the law of averages, Canada can look for a short crop of wheat any year now.

Rt. Hon. C. D. Howe, Minister of Trade and Commerce, warned in the House of Commons.

The minister denied the suggestion of Hatten Argue, (CCF—Assiniboia), that there was a glut of wheat. Out of Canada's abnormally big crop last year more than a normal crop of wheat had already been sold.

"If we could move it faster we would sell more," said Mr. Howe.

"The difficulty is in transportation rather than in sales. But it is my opinion—and I think the opinion of responsible men around the world, that the reserve stocks of wheat are not more than reasonable protection against the vagaries of nature."

"It must be remembered that this Continent has had seven or eight years of abnormally large crops. The law of averages works over a period, and we are due at any time for a short crop. I may say that the moisture conditions over the prairies this year are not too promising."

CANADA'S POPULATION

In the 12-month period, June 1, 1951, to June 1, 1952, Canada's population increased by 421,000—from 14,959,000 to 15,380,000 according to D.B.S. estimates. In the six-month period June 1, 1952, to Dec. 1, 1952, the increase was 194,000, bringing the total to 15,574,000. This slowing down in our rate of population growth is due almost entirely to the smaller number of immigrants in 1952—about 164,000, as against 194,000 for the year 1951.

Enter today! Blue Bonnet Sue's \$10,000. Happy Holiday Contest!

WONDERFUL PRIZES! For 9 consecutive weeks—every week until July 1st! Blue Bonnet Sue's Happy Holiday Contest will be giving away *super cash prizes*... plus the latest "Comet" *Aeropack* by the famous McBride baggage people... plus Northern Electric's thrilling new "Sportsman" portable radios! 207 winners in all!

CONTEST IS EASY! All you do, state in 25 words or less why you like Blue Bonnet Margarine best. Enclose 2 end-flaps with Good Housekeeping Seals of Approval from packages of Blue Bonnet, or facsimiles. Mail with your name and address—and that of your grocer—to BLUE BONNET SUE, HAPPY HOLIDAY CONTEST, P.O. BOX 2120, TORONTO, ONT. Complete contest rules at your grocer's.

GET STARTED TODAY! You can enter every week, as often as you like each week! Plan to keep your entries coming right up to the closing date of July 1st!

BUY BLUE BONNET MARGARINE THEN USE THIS COUPON TODAY!

Blue Bonnet Sue Happy Holiday Contest P.O. Box 2120, Toronto, Ont.

Enclosed find, stored in 25 words or less, why I like Blue Bonnet Margarine best, why I like it, and why I like it with Good Housekeeping Seal, from Blue Bonnet packages or facsimiles.

FLY THE FLAG CORONATION DAY

Considerable comment has been heard around town of late regarding the advisability of flying the flag on Coronation Day and other days signifying patriotic events. It is felt that in the past not enough of the business places in Coleman have followed this practice. With Coronation Day coming up in less than a month some thought should be given this idea.

On this day especially it is fitting that we unfurl our flag proudly . . . salute it sincerely . . . gaze upon it fondly. It is the emblem of everything that we hold dear. Our flag is known the world over as a symbol of our liberty and freedom. Let us fly our flag, pause and give thanks for these great blessings, knowing that we can strive to make our homes and community according to the highest ideals of British and Canadian tradition.

"I want my boy to be a man,
And yet in distant years,
I pray that He'll have eyes that can
Not quite keep back the tears
When, in coming from some foreign shore
And alien scenes that flag
Borne on its native breeze, once more
He sees his country's flag."

CORONATION PLANS ARE WELL ADVANCED

One of the best turnouts for public endeavor ever witnessed in Coleman was seen on Sunday evening when approximately 50 people representing 26 different clubs and organizations met to finalize plans for the Coronation celebration.

As things stand at the present the days events will open at 2 o'clock with a parade under the marshalling of the Canadian Legion. Taking part in this will be the R.C.M.P., Coleman Pipe Band, C.N.P. Band, R.C.M.E. Guard of Honor, Cadets, Brownies, Cubs, representatives of the various nationalities in their native costume, Canadian Legion, Polish Constables Society, St. Johns Ambulance, and a queen and 8 ladies in waiting selected by the school students union. Plans are being made to have the B.P.O.E. Patrol Team, Pythian Sisters, Rebekahs and O.O.R.P. in their regalia.

The parade will culminate at the sports field with a 21 gun salute by the R.C.M.E. and the dipping of flags, following which the parade will break off. Coleman Sports Assoc. will provide the P. A. system with Lor Richards as M.C. for the day. Remarks will be heard from Mayor Abousaty and the clergy of Coleman. Civil Defence Co-ordinator John McDonald, in conjunction with the volunteer department, will give a demonstration in civil defence.

Races will be held for the youngsters under 14 under supervision of the Sport Assoc. A mammoth picnic will be held at the grounds when everyone is expected to bring their own picnic basket. Each child at the field will receive one pop and ice cream free of charge. Geo. Jenkins was appointed chairman to handle supplies of pop and ice cream and pop and tickets for the free pop etc. will be distributed by the B.P.O.E. Pythian Sisters will handle the distribution of pop and the Ladies Aux. B.E.S.L. the distribution of ice cream.

A co-ordinating committee was set up comprising J. R. Hill, G. Rushton, R. Crippen, G. Jenkins, L. Richards, Mrs. J. Jones and Mrs. A. Dick. Prizes of \$3, \$2 and \$1 will be awarded to the best decorated two wheel bike and tricycle, boy and girl.

In the evening a street dance will be conducted under the arrangements of the Ladies Aux. B.E.S.L. at a location to be selected later. A huge bonfire at some prominent spot will bring the day to a climax.

Over all cost is estimated to be in the neighborhood of \$300 and substantial contributions have been promised by the council and sports association. The balance will be raised by the various organizations attending the meeting.

Brownie News

1st Coleman Brownie Pack met in the S. A. Hall, Wed., May 6th, with sixteen Brownies in attendance. After the "Opening Ceremony" and Fairy Gold collection, the Brownies went for a hike up to the "big rock" on the top of the 3rd St. hill; to finish their meeting. The fresh spring air was delightfully and judging from the pep and vim of the girls, it was "life giving" Six brownies, namely: Elaine Benko, Joan Beyon, Louise Crippen, Marie Yakus, Linda Lowe, and Carol Nelson, passed their "Knot Test." This was a relief for some, knots to them, weren't meant for girls to have to learn. Barbara Dickieson and Dianne Benko practiced throwing a ball

LOCAL NEWS

On Saturday night May 2nd, twenty five members of Fernie Lodge B.P.O.E. came down with the travelling gavel to Coleman lodge. D.D.G.E. Bro. H. Uphill came down with them and was welcomed in the lodge. E. R. Bro. F. Dawson presented the travelling gavel to E. R. Bro. H. Zak along with the log book. A splendid supper was served by the brothers along with a social evening. At the Coleman lodge regular meeting May 7 a social evening was held. E. R. Bros. H. Zak called on Bro. M. Ray, of Fernie, who had brought with him color films of Swift Canadian giving the life of Mr. Swift and how he started in business. J. Wavrecan of Coleman operated the machine for the two hour show. At 10.30 p.m., Mr. A. Williams of Blairmore gave a performance in magic. Over 100 Elks and ladies were in attendance and went away pleased with the show.

TENDERS FOR COAL

(Western Provinces)

SEALED TENDERS addressed to the undersigned and endorsed **TENDER FOR COAL FOR WESTERN PROVINCES**, will be received until 3 p.m. (E.D.S.T.), **WEDNESDAY, MAY 20, 1953**, for the supply of coal for the Federal Buildings and Experimental Farms and Stations, throughout the Provinces of Manitoba, Saskatchewan, Alberta and British Columbia.

Forms of tender with specifications and conditions attached can be obtained from the Chief of Purchasing and Stores, Department of Public Works, Ottawa; the District Resident Architect, Winnipeg, Man.; the District Resident Architect, Saskatoon, Sask.; the District Resident Architect, Calgary, Alta.; and the District Resident Architect, Vancouver, B. C.

Tenders should be made on the forms supplied by the Department and in accordance with departmental specifications and conditions attached thereto. The Department reserves the right to demand from any successful tenderer, before awarding the order, a security deposit in the form of a certified cheque on a chartered bank in Canada, made payable to the order of the Honourable the Minister of Public Works equal to 10 per cent of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies unconditionally guaranteed as to principal and interest by the Dominion of Canada, or the Government of Canada and a certified cheque if required to make up an odd amount.

ROBERT FORTIER,
Acting Secretary,
Department of Public Works,
Ottawa, April 24, 1953.

The Buick motor car observes its golden anniversary this year.

You never saw a PROPANE BURNER like this

The Iron Fireman radiant propane burner produces radiant heat at the grate-line level, just as does the glowing coal fire for which your coal furnace was designed.

If your furnace is in good condition you need not waste money on a new one to get automatic PROPANE heat. This Iron Fireman propane burner (made in Canada) is specifically engineered for converting coal furnaces to propane firing. How? By surrounding the nonradiant blue gas flame with a combustion chamber of very light, porous refractory which heats to a state of incandescence in a few seconds and glows like a gas mantle. Its heat is radiant like a bed of glowing coals. You can switch to PROPANE automatic heat within a few hours. Complete Iron Fireman furnaces with the radiant propane burner built in are also available. ASK your local propane distributor about the efficiency of the Iron Fireman propane burner. ASK about the big fuel savings enjoyed by users. ASK about the years of trouble-free service that makes Iron Fireman the BIG BUY in propane heating.

Iron Fireman Radiant Propane Burners are made in Canada

For more facts see your Iron Fireman dealer or propane distributor.

Winners Of Poster Contest Announced

In connection with Forest Conservation Week, a poster competition was again held, open to all school pupils in the Western Provinces, with provincial prizes, and a grand prize for the best poster submitted.

This contest closed on March 1st, with a total of 516 posters submitted from the three provinces: Alberta, 244; Manitoba, 185; Saskatchewan, 387. Returns were received from all over the West, from both City and Rural schools, with many entries coming from small forest and farm communities, and apparently nearly 15,000 students worked on the preparation of posters.

As the main objective of the contest was to interest the young people in conservation, and increase their knowledge of the importance of our forest resources, this undertaking met with considerable success. Though the number of the entries was less than in 1932, the schools represented indicated a more complete coverage of the West than was the case in the previous contest.

Each year "conservation classes" are held by Association conservation officers in hundreds of Western schools, attended annually by over 150,000 school pupils. This contest serves to increase the effectiveness of the Association's work amongst the young people. A large number of effective and interesting posters were received, and some of this material will be used in our publicity campaigns in conservation.

The Alberta entries were judged under the direction of Mr. E. S. Huettner, Director of Forestry for Alberta. In Saskatchewan, Mr. E. J. Marshall, Director of Forestry for Saskatchewan, appointed a panel of judges. Manitoba posters were judged by a panel of judges with Mr. J. G. Somers, Provincial Forester of Manitoba, as Chairman. The grand prize winner was selected by the Manitoba judges.

Helps You Overcome Itching of Piles

Or Money Back

You do not have to be tortured and embarrassed by the itching, soreness and burning pain of piles any longer. Here is real help for you. Get a package of Hem-Roid, an internal pile treatment, all at one store and use as directed. You will be pleased at how quickly your pile trouble is relieved. Only \$1.25 for the big 60 tablet package. If you are not completely satisfied after using Hem-Roid 2 or 3 days, as a test, ask for your money back. Refund given by all drug stores.

Patterns

Sparkle for Linens!

7176

by Alice Brooks

How linens sparkle with these bright blooming flowers! Expert or beginner, both enjoy the easy cross-stitch and plain embroidery.

Cross-stitch you can use on linens or personal accessories. Pattern 7176 has a transfer of 8 motifs 3 1/2 x 7 1/2 inches.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Household Arts Department, Prairie Publishers Limited, 60 Front Street W., Toronto.

Be sure to write plainly your Name, Address and Pattern Number.

TEN COMPLETE PATTERNS to sew, embroider, crochet—printed in the new 1933 Alice Brooks Needlecraft Book! Plus many more patterns to send for—including ideas for gifts, home accessories, toys, fashions! Send 25 cents now!

Most common form of deafness is caused by hardening of all the tissues, eardrum and middle ear ossicles. 3036

Prize Winners: The Grand Prize of \$25.00, for the best poster submitted, was awarded to Don Hudson, Connaught School, Regina, Saskatchewan.

MANITOBA

First Prize — \$25.00, Steven Kawale, Machray School, Winnipeg, Manitoba.

Second Prize—\$15.00, Barry Padolsky, Machray School, Winnipeg, Manitoba. Third Prize — \$10.00, Lloyd Lee, Earl Oxford Junior High School, Brandon, Manitoba.

Five Honourable Mention Prizes of \$1.00 — Vivian Wood, Earl Grey School, Winnipeg, Manitoba; Alan Baxter, Earl Oxford Junior High School, Brandon, Manitoba; Lord Roberts School, Winnipeg, Manitoba; Donald M. Martin, River Bank School, Nesbitt, Manitoba; Doug Greig, Earl Oxford Junior High School, Brandon, Manitoba.

SASKATCHEWAN

First Prize — \$25.00, and Grand Prize Winner, Don Hudson, Connaught School, Regina, Saskatchewan.

Second Prize — \$15.00, Ken Read, North Battleford Collegiate Institute, North Battleford, Saskatchewan. Third Prize — \$10.00, Chong Mah, Central School, Prince Albert, Saskatchewan; Carole Flory, St. Joseph's School, Saskatoon, Saskatchewan; Erna Kirk, Prelate School, Prelate, Saskatchewan.

Five Honourable Mention Prizes of \$1.00—Donna Marie Newhouse, McLaughlin School, Wilkie, Saskatchewan; Eunice Woodward, Cuthbert School, Cuthbert, Saskatchewan; Young Mah, Central School, Prince Albert, Saskatchewan; Carole Flory, St. Joseph's School, Saskatoon, Saskatchewan; Erna Kirk, Prelate School, Prelate, Saskatchewan.

ALBERTA

First Prize — \$25.00, Marie McGuire, St. Mary's High School, Edmonton, Alberta.

Second Prize—\$15.00, Larry Guard, Spruce Hill S.D., No. 4786, Winfield, Alberta. Third Prize—\$10.00, Louella Biello, St. Mary's High School, Edmonton, Alberta.

Five Honourable Mention Prizes of \$1.00—Elizabeth Zukivsky, Eastwood High School, Edmonton, Alberta; Helen Dewry, Eastwood High School, Edmonton, Alberta; Gerald Smith, George School, Calgary, Alberta; Dorothy E. Smyth, Prairie River School, High Prairie, Alberta; Sophie Michalcuk, Keg River School, Keg River, Alberta.

Cars Parked Cheap In Police Garage

VANCOUVER. — Motorists have found a cheap place to park — the police garage.

Police Chief Walter Mulligan complained two many drivers whose cars are impounded for traffic infractions are leaving them in the police garage for days.

The reason—the storage charges are only 50 cents a day.

But now things will be different. The fee will be 50 cents a day for the first three days, and then it will jump to \$2 a day.

Funny and Otherwise

The reporter began to ask his questions. "What made you a multi-millionaire?" he asked. The terribly rich man looked pensive. "I think you can say my wife did," he replied at length. "I see, her loyal help."

"No, no. I was curious to know if there was any income she couldn't live beyond."

Bidding ceased suddenly while the auctioneer examined a slip of paper that had been handed up to him. "Gentlemen," he said, "I understand that someone among those present has lost a wallet containing \$200 in banknotes. He is prepared to offer \$50 for its recovery."

A Voice: "Yes!"

A showgirl with abundant charms shot her boy friend and then cried her way through her trial. For days the jury gazed upon her beauty, and finally announced their verdict: "We find the defendant breathing-taking, entrancing, wholesome, lovable and—oh, yes—not guilty."

"I've come to mend the tap you wrote about," said the plumber to the woman who answered the door. "But we didn't send for you," said the woman.

"You're Mrs. Green?"

"No. Mrs. Green left here two months ago — before we moved in."

The plumber turned to his boy. "Would you believe it, Bill? Fancy sending for us to do a job and then moving!"

Two waiters were standing by the table over which the tired diner had fallen asleep. "I've already wakened him twice," said the first waiter, "and now I'm going to wake him a third time."

"Why don't you have him taken out?" suggested the other.

"Not likely," whispered the first waiter. "Every time I wake him up he pays his bill and tips me."

A hypochondriac told his doctor in great alarm that he had a fatal liver disease.

"Nonsense!" protested the doctor. "You wouldn't know whether you had that or not. With that disease there's no discomfort of any kind."

"I know," gasped the patient. "My symptoms exactly."

Insurance Manager — What do you do with all these pictures when you paint them?

Artist — I sell them.

Insurance Manager — Great! Name your own figure and come to work Monday. I've been looking for a salesman like you for years.

THREE BIRD HOUSES

You will be sure to have interesting tenants if you put these houses in trees, on poles in the garden, or on the garage. Wrens prefer to be near your dwelling. Make up these houses now and put them out just when they will be needed for the second brood of the 1933 season. Three houses all on Pattern 341, price 35 cents.

YOU CAN MAKE THIS SET

All you need to make these five basic units is common lumber in stock sizes; a few nails, bolts and screws. Just follow the dimensions for the simple saw cuts. Arms are bolted in place after padding and covering. Use springs for foam rubber cushions. One-two-three picture steps on Pattern 369, price 35 cents.

Send thirty-five cents (35c) for each pattern. Write plainly Name, Address and Number of Pattern. Send orders to:

Home Workshop Pattern Service, Prairie Publishers Limited, 4433 West Fifth Ave., Vancouver, B.C.

When a Mountain Smothered a Town

Fifty years ago the town of Frank, Alta., was buried under 70,000,000 tons of limestone that fell off Turtle Mountain. The slide, as it is called, shows clearly as a white slash on the mountain face. The town of Frank's Nest Pass is in the foreground—Central Press Canadian.

By C. F. STEELE (CPC Correspondent)

FRANK, Alta.—There will be a fiftieth anniversary marked in the town of Frank on April 29, but there will be no joyous note. On the contrary, there will be a sombre flashback to the great Frank Slide of April 29, 1903, when much of the then booming Crow's Nest Pass coal town was buried to a depth of 100 feet in as many seconds.

The Frank Slide is one of the major disasters in Canadian history. The number of dead has perhaps never been positively established; there was no means of counting the toll of life. It varies from 66 to 100, perhaps more. The property loss was great.

From the blow and Frank never recovered. In 1903, with its mines working full shift and few layoffs, it visioned a "Place in the Sun", as did a lot of western towns in the roaring days at the turn of the century. But with the Slide the hopes were grimly wiped out.

Frank today is a quiet little village with most of the homes clustered along the rambling Main Street, beyond the reach of further trouble from crumbling Turtle Mountain. There are those who say Old Turtle will again strike, but they rarely hear this talk in Frank.

It happened at 4:10 in the morning 50 years ago April 29. The giant overhanging front of Turtle Mountain suddenly gave way, hurling a flood of limestone down on the sleeping town and destroying it. It rolled like a tide of death across the whole valley and the lives snuffed out would have been greater had not many of the pit workers been on shift and so escaped.

The Alberta government erected an inscription on the site of the Slide, telling in a few words the poignant story of the vast tomb that still meets the eye of travellers over No. 3 Highway through the Pass. These are the words:

"Disaster struck here at 4:10 a.m., April 29, 1903. A gigantic wedge of limestone 1,300 feet high, 4,000 feet wide and 500 feet thick crashed down from Turtle Mountain and destroyed the town of Frank. Seventy million tons of rock swept over two miles of valley, taking 66 lives and burying numerous homes, the mine and railway, along with 3,200 acres of fertile land."

As those who survived the avalanche of rock sought to help those within reach, the miners—husbands, fathers and brothers—dug their tools to come off shift. Suddenly they found their way blocked. This caused only scant surprise, since for months the timbers had been occasionally broken.

"This is a cave-in," someone said. And the men accepted his word for it and came out of the mine by another exit just as dawn was breaking over the valley. Amazed and horrified, they saw their once proud little town all but buried and much of what was left a tangled mass of ruins. They looked first for their homes and their families, but to many neither were visible in that weird sea of rock and debris. Houses had been matched before that terrible catastrophe as the speechless pit men saw.

The C.P.R. Crow's Nest line, which links Southern Alberta points with Southeast British Columbia, was destroyed, as was Frank's one industry—the coal mine. A new line has been blazed through the wall of rock and the floor of the valley has been reached with hope now of finding the remains of some of the victims.

An automobile road—No. 3 southern route of the Trans-Canada highway—has been built and on April 29 when the 50th anniversary of the Frank Slide will be marked, a new

viewpoint will be dedicated. The little burial plot, holding the bones of some who died that April morning as they slept, has been renovated and made pleasing to the eye. These remains were found by workmen building the new highway through the Slide. They were tenderly re-interred, a cross erected and the plot fenced.

Few vestiges of the town have yet been found in the excavated area but a level has been reached that should disclose something. There was one wild story that gained wide currency at the time of the disaster. It was that the bank at Frank had been buried with a fortune in its vaults. This is not true—the bank escaped.

The Slide is a fabulous source of rock for the C.P.R. and trainroads have been moved east as far as Moose Jaw to be used for maintenance work on its roads. But there is slight evidence today that the material has been moved out, so vast is the deposit spread out in wild disorder across the valley.

And over the panorama of rock, with here and there patches of grass and a few hardy trees struggling to survive, Old Turtle still stands, its sheer sides rising 7,000 feet from the valley. It is still considered by geologists a threat and although warnings have been issued, a few families cling to their cottages in the danger zone, refusing to move.

Cause of the Frank Slide has created no end of speculation. A geological report has this to say: "The slide was due, not to a single cause, but to a combination of causes, among which the opening up of a large chamber in the mine, situated under the base of the mountain, may have been a contributory cause."

As those who survived the avalanche of rock sought to help those within reach, the miners—husbands, fathers and brothers—dug their tools to come off shift. Suddenly they found their way blocked. This caused only scant surprise, since for months the timbers had been occasionally broken.

"This is a cave-in," someone said. And the men accepted his word for it and came out of the mine by another exit just as dawn was breaking over the valley. Amazed and horrified, they saw their once proud little town all but buried and much of what was left a tangled mass of ruins. They looked first for their homes and their families, but to many neither were visible in that weird sea of rock and debris. Houses had been matched before that terrible catastrophe as the speechless pit men saw.

The C.P.R. Crow's Nest line, which links Southern Alberta points with Southeast British Columbia, was destroyed, as was Frank's one industry—the coal mine. A new line has been blazed through the wall of rock and the floor of the valley has been reached with hope now of finding the remains of some of the victims.

An automobile road—No. 3 southern route of the Trans-Canada highway—has been built and on April 29 when the 50th anniversary of the Frank Slide will be marked, a new

The Sports Clinic

(An official department of Sports College)
Conducted by Lloyd "Ace" Percival

Hitting The "Speedball"

Statistics show that in amateur baseball or softball, and softball, and especially in the teen-age leagues, the average player can't hit real "speedball" pitching very successfully. Here are the main reasons why the average ball player can't hit "speedball" pitching: (1) He uses the same type of hitting stance, swing and footwork that he uses for ordinary pitching. (2) He is afraid of a "speedball" and worries about getting hurt. (3) He swings too late because his co-ordination of eye and muscle is not fast enough. Finally, he can't hit "speedball" pitching because he hasn't practised hitting against this type of pitch enough.

Here's how you can avoid these mistakes. First, stand well back in the hitter's box — as close to the catcher as possible. Don't hold the bat behind you in the ready-to-hit position as far back as you do when facing ordinary pitching. Use a "choke" grip on the bat. Use a short, brisk swing. Finally, cut down on your stride into the ball. If you stand up at the plate and think only of watching the ball, you aren't likely to get hit: so don't worry about it. To get used to "speedball" pitching get your team pitcher or any pal who can pitch fairly well and get him to pitch as fast as he can to you every day for 10 or 15 minutes, using the following system. Make him pitch to you from a closer distance than the official box, and as you get used to it have him move closer until he is pitching from half

the regular distance. When you are able to hit him consistently from this distance you will be ready to hit "speedball" pitching from the regular distance. So make this practice stunt an important part of your baseball training because it will do wonders for your hitting.

Help Them Help You

All you fellows who are competing in any track and field meet should remember this, your school athletic directors or your city or town track officials have a tough job to do, so why not get out there and help them before the day of the meet. If you check with them beforehand to see if you and your pals can help lay out the field and so on, you will be helping yourself because you will have a better set-up, and this will help you to do a better job no matter what your event happens to be.

"Runner's Nausea"

Runner's nausea is a sick, upset feeling caused by lack of training usually at the start of the season. It is very common and is something most athletes have to overcome before they really develop toughness and physical endurance and is caused by an accumulation of fatigue acids in the stomach. The only thing dangerous about it is, if you worry about it and let it cause you to ease up, or stop driving yourself. To avoid make sure you eat as an athlete should, that you warm-up properly and that you train regularly. The main thing is to accept it cheerfully when it comes and don't worry about it or let it affect your enthusiasm.

Have you been intending to join Sports College but have not yet made the play? Have you been intending to send for a supply of registration forms to sign up your friends, team, club or school? Well, if your answer is yes—make a note to make your move today. Remember, membership is free and everyone is eligible to join. To join just send a note to Sports College, Box 99, Toronto 1, Ont.

ODDITIES In The News

More and more pilots of British European Airways are sprouting beards these days. Captain John Weidon, owner of the biggest and busiest, explained that bearded pilot gives passengers confidence.

Victor Berry and Irene Thomas of the Invalid Tricycle Association at Llanelli, Wales, in this Carmarthen town, both crippled after infancy, married and set off in motor-propelled chairs on a 60-mile honeymoon journey.

Game warden David Paul of Northern Ontario district reported that a Canada goose, killed when it stepped into a muskrat trap, had come from the Jack Miner bird sanctuary at Kingsville, Ont. The dead bird bore a 1947 tag.

A stray mother cat picked Mrs. Joan Nessler's, of Chicago, baby buggy to give birth to five kittens. Mrs. Nessler said she had left the buggy in front of her west side apartment for a few minutes while she took her five-month-old son into the house. When she returned she found it occupied by the cat and her newborn kittens.

Richard Fitzgerald of Sturdivant, Wis., can't wait until spring when the tree growing in his bathroom puts out its leaves. The tree popped through the floor of the bathroom and is growing alongside the tub. It is now about a foot high, and Fitzgerald said his family will use it to hang clothes on when it gets bigger.

On The Side : By E. V. Durling

Sound Business Principle

On several occasions I have advised young fellows wishing to go into business for themselves to begin with a small proposition that can be developed into a chain. One subscriber took this hint. He started with one small fruit juice stand. Now he has a chain of stands. I also know a man who started with a six-stool hamburger stand and built it into a countrywide chain. Speaking of chains, Montague Burton of England started a small tailoring shop with \$500 of borrowed money. Now the Burton chain has 630 branches. It is a business worth \$20 million dollars. Burton's sell made-to-measure suits for the equivalent of \$20.

Employers Prefer Blondes

Statistics on the subject have revised the figures for the feminine hair situation. It is now said a blonde has about 140,000 hairs, a brunette 106,000, and a redhead 90,000. Speaking of hair-coloring of females, I recently asked a blonde restaurant cashier why so many cashiers at eating places and film theatre boxes-offers were blondes. She said simply, "You can trust a blonde."

It's Unhygienic

Kissing is still being named as one of the major germ spreaders and the cause of many cases of influenza. In one discussion of the dangers of kissing from a health standpoint, a woman of 40, indicating that she had never been kissed though she had been married 40 years and was the mother of 14 children.

No Scarcity of Volunteers

There is no such thing as a kiss-proof lipstick. That's what I have claimed. Am now informed by a feminine subscriber that I know not whereof I speak. Well, I am not stubborn. Let's have a test. We could get six chorus girls to put on this lipstick. Then we could have them kiss six young men several times each and see what happens. I believe I can get six volunteers who would gladly furnish their own handkerchiefs to use in the test.

For Brides and Bridesmaids

Continuing our series of helpful hints to subscribers who will be June bridesmaids. Be certain to demand that your prospective bride take a get set go course in household efficiency. Have her instructed in how to cut down her steps while doing her housework. To arrange things so she won't always have to be reaching for something. Get her a kitchen range which will do away with the necessity of her stooping. Also ironing equipment so she can do her ironing sitting down and not bending over. And so on. Do this and, after you are married when you come home from a hard day's work, you will not be harassed by having your wife say, "What a day I have had. I am exhausted!"

MUSK-OX DIDN'T READ STATISTICAL FORECAST—The musk-ox, which 30 years ago appeared doomed to extinction, is multiplying and spreading to areas where he has never been seen before. In 1927 a survey estimated the number of musk-ox at 500. Today several large herds total 1,000 or more, and they have been seen as far south as Great Bear Lake.—Central Press Canadian.

WHAT OTHER PAPERS ARE SAYING:

Does education pay? The Town of Rapid City advertised that dog licenses must be paid by April 30. Dogs can't read, so who pays for these dog tags laying on Secretary Baskin's desk?—The Reporter, Rapid City, Man.

That white glove-without-fingers on Ed Clark's hand is a cast. Ed was stripping out what the valves left in their milk glasses recently when one of the containers, namely a cow, kicked him in the hand, breaking a bone in his wrist. This bears out our theory that men should leave milking alone. That's strictly for the women folk, or a milking machine, whichever you think is the most economical.—The Kipling Citizen, Kipling, Sask.

Yest the new roof over the Lodge Rooms, on our Memorial Hall has been completed. Some will say "yes" but that should have been done in the first place," granted we should have had a slant roof rather than a flat one. Now the mistake has been corrected, and again we are called on as a community to rally and help pay for this new roof. The cost of the new roof is \$2,300. But what can I do as an individual to help? Here is your answer, "Community Helper"—attend the "Put on the Roof Dance,"—The Carlyle Observer, Carlyle, Sask.

The profit is gone on a small ad, when we have to collect it. Please pay them up monthly.—The Kootenaiian, Kaslo, B.C.

Looking back, 1907—A valuable horse, buggy and harness belonging to A. Davidson of Indian Head was stolen by W. J. Davis, alias O'Malley, and was recovered in North Dakota and brought back to Indian Head.—The Qu'Appelle Progress, Qu'Appelle, Sask.

A sure sign of spring: It is reported on good authority that a total of 11 weddings will take place in Delburne and immediate vicinity between now and early summer. Stand up, boys, and be counted!—The Delburne Times, Delburne, Alta.

And the Cat Came Back

A few weeks ago, Mr. Jules Flaman, who resides south of town, gave a tom cat to his son-in-law, Mr. Lawrence McDonald, who took it to his home in Regina. Recently, Mr. Flaman was surprised to see the cat at his door from Regina to Wapella, a distance of about 130 miles.—Wapella Post.

Cruising radius of an airplane refers to the maximum distance its fuel capacity will allow it to go and return at a given speed.

Farmers Warned Against Bin-Burnt Grain

WINNIPEG—Western farmers with millions of bushels of grain piled in open bins after last year's bumper crop have been warned by the board of grain commissioners to watch for "bin-burnt kernels".

The kernels result from rain or melting snow leaking into a bin. A pocket of wet grain starts to heat and if the remaining grain is high in moisture content, the heating may spread and damage all the grain in the bin.

Chief grain inspector A. F. Doleary said the warning marked a marked increase in carlots containing heated kernels. The trouble was not centered in any particular area and there was no estimate of the amount of grain affected. The chief chemist Dr. J. A. Anderson of the grain research laboratory said the affected grain produces a small, dark loaf of bread.

Mr. Doleary said the condition was expected. Farmers' storage was far short of needs last fall when Western Canada harvested a record 1,300,000,000 bushels of all grains including an estimated 688,000,000 bushels of wheat.

Much was heaped in conical piles for open water storage. Other grain went into makeshift bins of lath-and-wire snowfence lined with waterproof paper.

At March 31, the Dominion bureau of statistics estimated 329,000,000 bushels of wheat were still on farms. "Farmers who have grain piled in the open should watch for heated and burnt kernels at the bottom of the pile," the board said. "Some kernels around the bottom edges of the pile are also likely to be damaged by sprouting. Even when piles are protected by snowfences and waterproof paper, the danger of leakage into the pile is still great."

"Particular pains should be taken to see that damaged kernels at the edges of the pile are hot mixed with the sound grain." If damage is not too severe, the grain may be used as feed, but bin-burnt kernels can be so black and odorous that they are fit for nothing. Badly heated kernels tend to stick together in clumps. Even a few heated kernels mixed with the rest of the grain may cause a serious loss of grade for the whole bin.

Kitchen Meditations

By JANE DALE

A WEEK'S MENDING

Thank goodness, at last the mending is done. For hubby, and sister and one grown-up son, I've darned up countless worn heels and toes— I don't want to see any more shabby hose.

The buttons! They must pop off over night; I've sewed on a dozen, at least. It's a fright!

I think every garment had two gaping seams— I'm sure I'll be sewing them up in my dreams.

Now, I'd like to command, warn, or just scold.

A whole week's vacation away from my needle.

So please don't strain, scuff, rip, tear, I pray; I've had enough mending for many a day!

INCREASING WOLVES

ROCKY MOUNTAIN HOUSE, Alta.—Provincial game commissioner E. S. Huettis says more rangers will be hired to carry out an intensive control campaign against wolves in this district. With an increase in their numbers the wolves have showed increasing boldness.

North America's third largest city is Mexico City.

Garden Notes

For Amateur Gardeners

EASY WORK HELPS

Weeds seem to thrive in any weather. Many people get discouraged early, especially when they see these pests literally crowding out their flowers and vegetables. One should take hope from the fact that one thorough weeding will bring the situation well under control. But this means pulling the weeds out by the roots or cutting them off below the soil's surface with a cultivator or hoe. This first and thorough job is carried out after the newly seeded flowers and vegetables are nicely up, say with their second or third set of leaves well started. Once that first clean-up has been carried out, a little routine cultivation will take care of the garden for the rest of the season.

GARDEN PATHS

No matter how small the garden there will be the problem of paths. Instead of being an eyesore, these can be made into an attractive feature of the lawn or flower plots or even the vegetable patch. Where traffic is usually concentrated such as near the door or a gate, it is advisable to use some solid material like flagstones, concrete slabs, bricks, cinder or gravel. With any of these the main thing is to place firmly and level with or just slightly above the surrounding grass, so that the lawn mower will trim or even run right over easily. Where the traffic is lighter, one can simply use grass for the strip of well grown, well fed and tough grass. It is surprising the amount of wear this will give. In lots of public gardens grass paths are used to divide the flower plots and they are seldom worn thin. Where cinder or gravel is used in paths or driveways one can eliminate grass and weeds by sprinkling heavily with rock salt or treating with some of the weed sprays.

HINTS

Experienced gardeners have all sorts of little tricks that will add to the interest and satisfaction of gardening. One of the oldest is to start seed planting. This applies especially to vegetable seeds like peas, beans, beets and lettuce. By soaking for a very few hours just before planting, germination is hastened and several days are saved. With carrots and beets it will help to prepare the roots with special care, digging out the poor or hard soil to a depth of six inches or a foot, and filling with rich soil with plenty of humus and manure. In such the seeds will germinate quickly and the young vegetables grow without being crowded. Because this special soil is very open there will be less need for thinning and the roots will grow straight. With melons, cucumbers and squash we usually sow in specially rich hills with some old rotten manure if we can find it. With all bedding plants, it is a good plan to pinch back after transplanting, and especially to remove any flowers or buds. This pinching encourages stouter and healthier growth and in the end we get much harder and bigger blooms.

TRANSPLANTING

If there is any secret about successful transplanting, the answer is plenty of moisture. Under normal conditions it is quite possible to water too often, if not too much, and a hose in the hands of the gardener is not always an unkind blessing. But in transplanting some extra watering is almost vital. In this business it is important to take as much soil with the plant or shrub as possible so that the fine roots are not broken or disturbed. Then the roots must be covered firmly with good, fine soil and dampened down with water. If the sun is hot it is good to shade for a few hours. Better still, transplant in the cool evening.

LOCAL AND PERSONAL NEWS ITEMS

The Ladies Aux. of St. Paul's United church will hold a straw-berry tea on June 20th.

Miss Lenore Dutil is touring north eastern Alberta with the University Mixed Choir.

Mr. and Mrs. John Morrison and daughter Chrissie were recent Calgary visitors.

Mr. and Mrs. E. Somshor and family spent the weekend at Red Deer.

Mothers' Day church service was very well attended at the United church, five great grandmothers were present along with many grandmothers and moth-

ers all of whom received corsages of daisies. Mrs. Gwen Cousins was guest soloist and the Junior Choir rendered a beautiful anthem. Sunday school and church were combined for this special service. P. A. Dickieson Sunday School Supt. assisted the minister Rev. Morrison.

Mrs. R. J. Nadeau and family left recently for Barrhead to reside.

The Calgary Citadel Songsters, of The Salvation Army will be visiting Coleman for the weekend of June 13th-14th. They will present a musical program on the Saturday night. This program will consist of Songster So-

lections, 36 voices; Vocal Quartettes; Vocal Duets; Vocal Solos; Readings; Instrumental Solo; Instrumental Quartette; Ladies Trio and a Ten Instrument Brass Ensemble. Watch for further announcements as to locale of this Concert. The Brigade will also be in Coleman for the Services on Sunday. Major W. Ratcliffe the Commanding Officer of the Calgary Citadel Corps will accompany the group.

Mr. and Mrs. J. Cousins and son of Lethbridge visited his mother Mrs. W. Cousins and other relatives here over weekend.

The Ladies Aux. of St. Paul's United church will hold their annual bazaar and tea on Nov. 21.

Mr. and Mrs. Dave Emery, of Sacramento, Calif., recently visited their granddaughter Donna here.

Mrs. W. Lonsbury is a patient in the C.N.P. hospital.

Graduating from the University with a degree of Bachelor of Science in Mining Engineering, was John Ferrara of Coleman.

Mr. and Mrs. E. Gushul left Saturday to attend a photographers convention at Spokane and a two week holiday to various points in B.C.

Miss Elaine McLean, R.N. daughter of Mrs. A. McLean, will receive her Bachelor of Science degree in Nursing at the University of Alberta Convocation on May 14.

Mr. and Mrs. Pettifor of Brooks attended the funeral services for their son-in-law J. Fowlyk. Mrs. Pettifor will remain here for a short time.

Mr. and Mrs. L. A. Caroe have received word that their son L.A. Caroe Jr. has arrived back in Canada after 4 1/2 years in England. Mr. Caroe will make his home in Toronto and reports very glad to be back in Canada.

Mrs. Katie McIsaac and daughter Lella, of Vancouver, and Mrs. Hilda Parr of Edmonton arrived at the home of their parents, Mr. and Mrs. W. Fowlyk to attend the funeral of their brother John. Another sister Mary in California was unable to attend.

The fire brigade answered a call at 9 a.m. Tuesday to a fire at Huffman's Barber Shop. A brakeman on the C.P.R. noticed smoke and told Joe Plante. On climbing a box car Joe noticed the flames and turned in the alarm. Prompt action prevented flames from getting a hold on the roof and possibly endangering the entire block.

Dist. Deputy Supreme Honored Royal Lady Dora McDonald, of Fort Macleod assisted by Hon. Royal Lady M. Oberne, of Lethbridge, installed the new order O.O.R.P. in Blainmore. Coleman officers and drill team put the new order through the ceremony and gave a demonstration of floor work. A white bible was presented by Past Hon. Royal Lady Mrs. V. Somshor on behalf of Coleman lodge. Brother Bills from Fernie and Coleman Elks lodges witnessed the installation of new officers.

The regular meeting of the Ladies Aux. to the hospital was held May 6 at the hospital. A cheque to cover the cost of one modern overbed table was received from the Blainmore B.P.O.E. The ladies were most appreciative of this help. It was decided to hold a sale of home baking at the Simpson-Sears office in Blainmore May 6. A number of sewing machines have been received from the Hillcrest School Board to help with the repair of linen and sewing of new garments. These machines were formerly used by the Home Economics classes which have been discontinued.

The monthly meeting of the C.N.P. chapter of the Nurses Association was held May 7 at the hospital. Plans were completed for the basking sale May 23. The nurses scholarship committee reported that the sum of \$100

would again be awarded the girl receiving the highest marks in grade 12 final exams in the C.N.P. who is entering a recognized school of nursing. Mrs. Alice Velpava, Miss Mary Kubik and Mrs. E. Bruning are the official delegates who will attend the nurses provincial convention at Banff in May. Miss H. Clemis is donating a cake to be raffled at the Baking Sale. Next meeting

will be June 4 at the home of Mrs. E. Bruning, Blainmore.
